## **DETAILED ACTION**

### ***Response to Amendment***

1. As per Applicant's instructions as filed on 8/01/08, claims 29, 36-37, and 40-41 have been amended, and claims 35 and 39 have been canceled.

### ***Response to Remarks***

2. Applicant's arguments with respect to the amended claim 29 have been carefully considered but are moot in view of the following new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Independent claim 29 and dependent claims 30-34, 36-38, 40-41 (by virtue of their dependencies) are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The independent claim(s) contain subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

**On claim 29**, the amended subject matter of "wherein the first data comprises a user data portion, wherein the formatted second data is inserted into the user data portion," did not have proper support in the Applicant's specification. A relevant description in the specification with respect to the recited "a user data portion" is the first data encoder (Fig. 5) comprising a user data portion (42). Furthermore, the only data being inserted into the user data portion (as in element 42) is service data (as shown in Fig. 5 as Service Data Input), which is not "the formatted second data" as recited in amended claim 29.

Therefore, corrections are required to overcome the above rejection.

Henceforth, merits of currently pending amended claims as above will be put on hold and not examined, until Applicant overcomes/clears the above 35 U.S.C. 112, first paragraph rejection.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.

- B) Zhang et al (6,181,711 B1) ;

- E) Ramaswamy et al (6,888,840 B1) as previously cited in the last Office

action as filed on 5/22/08.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
